

CHERRY MC 4900

Easy Log-On and Authentication By Fingerprint

Models may vary from the image shown

The CHERRY MC 4900 wired mouse with FingerTip sensor is ideal for workplaces that are used by different users within a company, public authority or institution. It doesn't matter whether authentication software with single sign-on or with several logon processes is used, authentication by fingerprint is secure and fast.

Incidentally, the CHERRY MC 4900 also features a symmetrical form, making it optimal for use by both left-handers and right-handers. Rubber-coated sides and an extra wide scroll wheel increase user comfort even further.

System logon is offered as a standard feature by most operating systems currently in use, and it is easy to implement for selected applications.

FUNCTION AND PERFORMANCE

- Fingerprint reader in the mouse
- Easy logon using fingerprint
- Plug & Play for Windows Hello
- 3-button mouse
- SDK for integration into other applications
- Optical sensor (1375 dpi)

- Symmetrical mouse
- 1.8 m cable with USB connection
